BFP5 Mapboards

BFP DW-5a and DW-6a, hexes B2 and Z1 are missing a center dot.

Board BFP R, hexes L10 and N10 are labeled as J10.

BFP German Vehicle Notes: The note for the SdKfz 8 FlaK88 (Vehicle Note 7) should read:

† CE DRM is +3 to fire traced through the VCA/TCA. This is shown by "CE: +3 VCA/TCA" on the counter; CE DRM to Indirect Fire is always +1. The Crew is always completely exposed to FP that is not traced through the VCA/TCA (as is the MA) with no CE DRM, and Random SW Destruction applies to the MA; however, the AFV is not considered to be an unarmored target via its superstructure. In other words a hit on the Turret side/rear through the side/rear VCA is always considered to have struck an armored target, but the Crew/MA is always treated as being in an unarmored vehicle.
