

**Poland in Flames Errata** as of October 24, 2020

### **BFP Scenario Errata**

**BFP106 Going Postal:** Add SBR9 stating, "The German 75 ART may be towed by a Truck."

**BFP109:** The Pz IVC should be normal ground pressure.

**BFP110 Polish Panzerjagers:** The Polish at-start OB set up description should state "Set up on board BFP P within 4 hexes of a building and/or on board DW-5."

**BFP122 At Sword Point:** German OPTIONS: "Change MISSION to  $\geq 30$ ".

**BFP123 Asphalt Soldiers:** SBR2: X16 is on Board 10 DD7/EE7, X23 is on Board 46 Z7/Z6. Change MISSION: penultimate sentence, add: ...on boards 10/46 on/east of hexrow R and anywhere on Board 1b.

**BFP126:** Polish at-start OB road boundary should state A5-H6-J5-S6.

**BFP138, 140, 142:** The BT5 M34 should be the BFP version.

**BFP140:** The PTP obr 30 should be the BFP version.

**BFP147:** The PP obr 27 should be the BFP version.

### **BFP5 Map Errata**

On boards DW5 and DW6, hexes B2 and Z1 do not have a center dot.

Board BFP R, hexes L10 and N10 are labeled as J10.

### **BFP5 Counter Errata**

The Polish wz30 .50 cal HMG should have a repair of 2 instead of 3.

The German SdKfz 8 FlaK88 should say CE: +3 VCA/TCA on the back of the counter.

### **BFP5 Vehicle Notes**

The note for the SdKfz 8 FlaK88 (Vehicle Note 7) should read,

“† CE DRM is +3 to fire traced through the VCA/TCA. This is shown by "CE: +3 VCA/TCA" on the counter; CE DRM to Indirect Fire is always +1. The Crew is always completely exposed to FP that is not traced through the VCA/TCA (as is the MA) with no CE DRM, and Random SW Destruction applies to the MA; however, the AFV is not considered to be an unarmored target via its superstructure. In other words a hit on the Turret side/rear through the side/rear VCA is always considered to have struck an armored target, but the

Crew/MA is always treated as being in an unarmored vehicle.”

Russian Multi-Applicable Vehicle Note C (page 10), the 45mm canister value should be 12.

Russian Multi-Applicable Vehicle Note C (page 12), the entry should be 45mm instead of 47mm, and the 45mm canister value should be 12.

### **BFP5 Magazine Errata**

In page 5, in the paragraph of the MG 08/18 LMG, the word Gebirgsjaeger is spelled incorrect.

In page 43, second paragraph, last line, instead of FPF CC Reaction Fire is written FPC CC Reaction Fire.

### **BFP5 Rules Errata**

Page BFP 6, the section numbering is repeated. The first section 7.4 should be 7.3.

### **BFP5 Q&A**

**Q:** Is the wz.34 C4P able to tow h-d Guns?

**A:** Yes.

**Clarification: Map BFP O:** Hex Z5 contains a printed Ford (B20).

### **BFP106: Going Postal**

**Q:** Given SBR 7, what is the ELR for the non-SS MMC?

“SBR 7. SS MMC are Lax. German ELR is as follows: Leaders 3, SS MMC 3.”

**A:** The MMC in the reinforcements are German 8-3-8 squads, so they have an ELR of 5. ELR doesn't apply to crews.

### **BFP113: Bunker Bash**

**Q:** OB states 24 factors of mines and SSR 3 says Mine Exchange is NA. Does this mean you can only use AP mines?

**A:** Yes.
